

Edlund Model 395 Electric Knife Sharpener

The easiest way to keep your kitchen skills sharp.

Our electric knife sharpener provides results similar to a professional knife sharpening service. With new safety features and a precise guidance system built-in, there's no easier way to get professional sharpening results as often as you need them. Now when it comes to controlling kitchen costs, maybe you won't need to sharpen your pencil as much.

- Lighted rocker switch indicates when motor is running.
- Our precise guidance system consistently provides excellent sharpening results.
- Proven and reliable motor and replacement stone will provide years of precise sharpening of practically any knife – from $\frac{3}{16}$ of an inch knives to cleaver blades.
- The width of the knife slot has been reduced to $\frac{3}{16}$ of an inch for additional safety.
- ABS plastic knife guides for easier cleaning and ease of operation.
- There are no magnets that can eventually magnetize the blade and contaminate food with metal shavings.
- Knife guides allow knife heel to be inserted closer to the grinding stone to maximize sharpened area on blade.
- Stainless steel case.
