

Edlund/ KBS-2002 Commercial Stainless Steel Knife Block

Introducing our beautiful new KBS-2002 NSF Certified Stainless Steel Knife Block. The first commercial quality, totally sanitary knife storage system designed to store a multitude of knives right on the countertop for immediate access. Edlund's exclusive open slot design allows positioning of your most frequently used knives where they are most convenient and the unique steel slot accepts regular round steels, flat diamond steels or an additional 1¼" knife.

- NSF Certified
- Stainless steel housing and base
- Removable extra thick plastic insert
- The extra thick, high impact high temperature replaceable storage insert is dishwasher safe and won't dull knife blades
- Open slot design holds up to 6 chef's knives
- Unique steel slot accepts regular round steels or flat diamond steels
- Made in U.S.A.

Edlund's new KBS-2002 Stainless Steel Knife Block promotes counter productivity.
